

179D Alternative Pathway Estimate

ALTERNATIVE PATHWAY

Audit Template

November 09, 2025

BUILDING INFORMATION

Building Name	179D Example Building	179D Portal ID#	24776e64
Building Address	611 N Franklin St Tampa FL 33602	Audit Template ID#	41679
Building Owner	A. Example Building Owner	UBID	76VVWGXR+RJ4-8-7-7-7
Year Built	2004	Portfolio Manager ID#	123456
Gross Floor Area	240,000.0	Report Status	In Progress
Principal Use Type	Office	Report Date	11/09/2025
		Software Release	1.0.0

ESTIMATED RESULTS

Annual EUI_{SITE} Savings (%)[*]	33.848
Weather Normalized Pre-retrofit EUI_{SITE} (kBtu/ft²/yr)	84.2
Weather Normalized Post-retrofit EUI_{SITE} (kBtu/ft²/yr)	55.7
Estimated Potential Tax Deduction - Energy Criteria Met (\$/ft²)^{**}	0.68
Estimated Potential Tax Deduction - All Criteria Met (\$/ft²)^{**}	3.4

* Reductions in site energy use due to installation of qualified Energy Efficiency Building Retrofit Property.

** Amount provided under "Estimated Potential Tax Deduction - Energy Criteria Met" applies when only the energy criteria are met. Amount provided under "Estimated Potential Tax Deduction - All Criteria Met" applies when the increased deduction requirements are also met (i.e., prevailing wage and apprenticeship). The tax deduction is the lesser of (1) the value of the calculated allowable tax deduction, or (2) the value of the asset. In other words, the deduction cannot be more than the amount that was spent on the equipment and associated installation labor.

Audit Details

	Date of Completion of Pre-retrofit Audit	05/01/2023
	Date of Completion of Post-retrofit Audit	05/01/2024
	Date when Building Originally Placed in Service	01/01/2004
	Date when Qualified Retrofit Plan Established	06/01/2023

For more information on the input fields, calculation methods, and units of measure found in this report, please visit the Audit Template web site: <https://buildingenergyscore.energy.gov>

Building Energy Savings Opportunities - Measures

Measure Identifier	EEBRP Category	Measure Category	Measure Name	Measure Description	Is 179D measure?
Measure 1	Building Envelope	Building Envelope Modifications	Air seal envelope	Add weather stripping and spray foam to better seal building envelop, reduce infiltration and improve occupant comfort. This is will also help to maintain space temperature in the building atrium	Yes
Measure 2	Interior Lighting System	Lighting Improvements	Retrofit with light emitting diode technologies	Replace existing non-LED lamps/ fixtures with new LED lamps/ fixtures	No
Measure 3	Heating, Cooling, Ventilation, and Hot Water Systems	Service Hot Water System	Install SHW controls	Install Domestic Hot Water Recirculation Flow Control - Domestic hot water (DHW) is supplied through the existing heating boiler. Constant operation of the recirculation pump and the exposed DHW piping in the apartments result in significant heat loss through those pipes. Bright Power recommends installing a DHW recirculation demand control strategy at the property	Yes
Measure 4	Heating, Cooling, Ventilation, and Hot Water Systems	Service Hot Water System	Install heat pump SHW system	Install an air source heat pump to create hot water for the domestic hot water	Yes

Measure Identifier	Measure Annual Energy, Energy Cost and Carbon Savings			
	Total Annual Energy Cost Savings (\$)	Annual Electricity Savings (kWh)	Annual Natural Gas Savings (therms)	Annual Fuel Oil #4 Savings (Gallons)
Measure 1	\$7800.00	0.00	560.00	75.00
Measure 2	\$48500.00	335000.00	-220.00	-15.00
Measure 3	\$14500.00	2400.00	120.00	30.00
Measure 4	\$25000.00	45600.00	350.00	35.00

Measure Identifier	Measure Cost and Incentives	
	Measure Cost (\$)	Incentives (\$)
Measure 1	\$11850.00	\$11850.00
Measure 2	\$180000.00	\$180000.00
Measure 3	\$59500.00	\$59500.00
